

POWER FORMING MACHINE

Chipless Cold Forming of Sheet Metals & Profiles

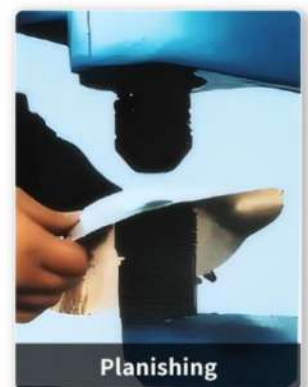

Within **NEXUG** forming technology, we specialize in sheet metal forming, profile bending, component manufacturing, repair, and precision trimming.

The forming tools are customizable for production needs. We offer a range of power cold-press forming equipments and tools.

Shrinking, stretching, doming, planishing, flattening, straightening, flanging, notching, punching and edging of sheet metal parts etc.
